General Certificate of Secondary Education

Mark Scheme for June 2025

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

MARKING INSTRUCTIONS

PREPARATION FOR MARKING RM ASSESSOR

1. Make sure that you have accessed and completed the relevant training packages for on-screen marking: *RM Assessor Online Training*; *OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are available in RM Assessor.
3. Log-in to RM Assessor then mark and annotate the **required number** of practice responses (“scripts”) and the **required number** of standardisation responses.

MARKING

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the RM Assessor 50% and 100% deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.
4. If you are in any doubt about applying the mark scheme, consult your Team Leader via the RM Assessor messaging system.
5. **Crossed out responses**
Where a candidate has crossed out a response and provided a clear alternative then the crossed-out response is not marked. Where no alternative response has been provided, examiners should give candidates the benefit of the doubt and mark the crossed-out response where legible.

Contradictory Responses

When a candidate provides contradictory responses, then no mark should be awarded, even if one of the answers is correct.

6. On each blank page the annotation **BP** must be inserted to confirm that the page has been checked. For additional objects (if present), a tick must be inserted on each page to confirm that it has been checked.
7. There is a NR (**No Response**) option. Award NR (No Response):
- if there is nothing written at all in the answer space
 - OR if there is a comment which does not in any way relate to the question (e.g., 'can't do', 'don't know')
 - OR if there is a mark (e.g., a dash, a question mark) which is not an attempt at the question.

Note: Award 0 marks – for an attempt that earns no credit (including copying out the question).

8. The RM Assessor **comments box** is used by the Principal Examiner or your Team Leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.**

If you have any questions or comments for your Team Leader, use the RM Assessor messaging system.

9. Assistant Examiners should send a brief report on the performance of candidates to their Team Leader (Supervisor) by the end of the marking period. Please follow the direction of your Team Leader about which questions you should report on and how to submit your report. Your report should contain notes on particular strengths displayed as well as common errors or weaknesses. *Constructive criticism of the question paper/mark scheme is also appreciated.*
10. Annotations available in RM Assessor. These **must** be used whenever appropriate during your marking.

Annotation	Meaning
	Correct
	Incorrect
BOD	Benefit of doubt
FT	Follow through

ISW	Ignore subsequent working (after correct answer obtained), provided method has been completed
M0	Method mark awarded 0
M1	Method mark awarded 1
M2	Method mark awarded 2
A1	Accuracy mark awarded 1
B1	Independent mark awarded 1
B2	Independent mark awarded 2
MR	Misread
SC	Special case
^	Omission sign
BP	Blank page
SEEN	Seen

For a response awarded zero (or full) marks a single appropriate annotation (cross, tick, M0 or ^) is sufficient, but not required.
 For responses that are not awarded either 0 or full marks, you must make it clear how you have arrived at the mark you have awarded and all responses must have enough annotation for a reviewer to decide if the mark awarded is correct without having to mark it independently.

It is vital that you annotate standardisation scripts fully to show how the marks have been awarded.

Subject-Specific Marking Instructions

- i. **M** marks are for using a correct method and are not lost for purely numerical errors.
A marks are for an accurate answer and depend on preceding **M** (method) marks. Therefore **M0 A1** cannot be awarded.
B marks are independent of **M** (method) marks and are for a correct final answer, a partially correct answer, or a correct intermediate stage.
SC marks are for special cases that are worthy of some credit.
- ii. The following abbreviations are commonly found in GCSE Mathematics mark schemes.
- **figs 237**, for example, means any answer with only these digits. You should ignore leading or trailing zeros and any decimal point e.g. 237000, 2.37, 2.370, 0.00237 would be acceptable but 23070 or 2374 would not.
 - **isw** means **ignore subsequent working** after correct answer obtained and applies as a default.
 - **nfw** means **not from wrong working**.
 - **oe** means **or equivalent**.
 - **rot** means **rounded or truncated**.
 - **soi** means **seen or implied**.
 - **dep** means that the marks are **dependent** on the marks indicated. You must check that the candidate has met all the criteria specified for the mark to be awarded.
 - **with correct working** means that full marks **must not** be awarded without some working. The required minimum amount of working will be defined in the guidance column and **SC** marks given for unsupported answers.
3. Anything in the mark scheme which is in square brackets [...] is not required for the mark to be earned, but if present it must be correct.
4. Unless the command word requires that working is shown and the working required is stated in the mark scheme, then if the correct answer is clearly given and is not from wrong working **full marks** should be awarded.
- Do not award the marks if the answer was obtained from an incorrect method, i.e. incorrect working is seen and the correct answer clearly follows from it.
5. Where follow through (**FT**) is indicated in the mark scheme, marks can be awarded where the candidate's work follows correctly from a previous answer whether or not it was correct. For questions with FT available you must ensure that you refer back to the relevant previous answer. You may find it easier to mark these questions candidate by candidate rather than question by question.

Figures or expressions that are being followed through are sometimes encompassed by single quotation marks after the word *their* for clarity, e.g. FT $180 \times (\text{their '37' + 16})$, or FT $300 - \sqrt{(\text{their '52 + 72'})}$. Answers to part questions which are being followed through are indicated by e.g. FT $3 \times \text{their (a)}$.

6. In questions **with no final answer line**, make no deductions for wrong work after an acceptable answer (i.e., **isw**) unless the mark scheme says otherwise, indicated by the instruction 'mark final answer'.
7. In questions **with a final answer line and incorrect answer given**:
- (i) If the correct answer is seen in the body of working and the answer given on the answer line is a clear transcription error allow full marks unless the mark scheme says 'mark final answer'. Place the annotation ✓ next to the correct answer.
 - (ii) If the correct answer is seen in the body of working but the answer line is blank, allow full marks. Place the annotation ✓ next to the correct answer.
 - (iii) If the correct answer is seen in the body of working but a completely different answer is seen on the answer line, then accuracy marks for the answer are lost. Method marks could still be awarded if there is no other method leading to the incorrect answer. Use the **M0**, **M1**, **M2** annotations as appropriate and place the annotation ✕ next to the wrong answer.
8. In questions **with a final answer line**:
- (i) If one answer is provided on the answer line, mark the method that leads to that answer. A correct step, value or statement that is not part of the method that leads to the given answer should be awarded **M0** and/or **B0**.
 - (ii) If more than one answer is provided on the answer line and there is a single method provided, award method marks only.
 - (iii) If more than one answer is provided on the answer line and there is more than one method provided, award marks for the poorer response unless the candidate has clearly indicated which method is to be marked.
9. In questions with **no final answer line**:
- (i) If a single response is provided, mark as usual.
 - (ii) If more than one response is provided, award marks for the poorer response unless the candidate has clearly indicated which response is to be marked.

When the data of a question is consistently misread in such a way as not to alter the nature or difficulty of the question, please follow the candidate's work and allow follow through for **A** and **B** marks. Deduct 1 mark from any **A** or **B** marks earned and record this by using the **MR** annotation. **M** marks are not deducted for misreads. If a candidate corrects the misread in a later part, do not continue to follow through, but award **A** and **B** marks for the correct answer only.

10. Unless the question asks for an answer to a specific degree of accuracy, always mark at the greatest number of significant figures even if this is rounded or truncated on the answer line. For example, an answer in the mark scheme is 15.75, which is seen in the working. The candidate then rounds or truncates this to 15.8, 15 or 16 on the answer line. Allow full marks for the 15.75.
11. Ranges of answers given in the mark scheme are always inclusive.
12. For methods not described in the mark scheme, such as visual representations like bar models, ratio tables, give equivalent marks for equivalent work. If in doubt, consult your Team Leader.
13. If in any case the mark scheme operates with considerable unfairness consult your Team Leader.

Question			Answer	Marks	Part marks and guidance	
1	(a)		17	1		
1	(b)		49	1		
1	(c)		21 and 39	1		Accept in either order
2			18	2	M1 for $\frac{4 \times 9}{2}$ oe	
3	(a)		$\frac{1}{4}$	1		Accept equivalent fractions
3	(b)		$\frac{3}{5}$	1		Accept equivalent fractions
4	(a)	(i)	[Shape A] parallelogram [Shape B] [regular] hexagon	2	B1 for each correct name correctly placed.	Condone poor spelling Do not allow e.g. hectagon or hectogon
4	(a)	(ii)	2	1		
4	(b)			1		No contradictions If sides and angles indicated mark the worst Use of arrows on sides is 0 marks The number of “lines” on equal sides must be the same. Allow 70, 70, 40 labelled as angles with correct notation. 70, 70, 40 alone is 0 marks Ignore all other additions e.g. numbers for length/angles and lines of reflection and apply the scheme
5	(a)		38	1		
5	(b)		15	2	B1 for [January] 45 or [March] 30	B1 mark may be awarded on bar chart

Question			Answer	Marks	Part marks and guidance	
5	(c)		Correct bar drawn for April	1		Accept good freehand Clear intention Accuracy - use overlay as a guide must touch both circles Bar width must be consistent with other months
5	(d)		Incorrect oe and shows [50% of 30 oe =] 15 is not equal to 18. or shows [50% of 30 oe =] 15 is not equal to 12. or shows [18 x 2 =] 36 is not equal to 30 or Incorrect oe and shows $[\frac{18}{30} \times 100] =]$ 60% or $[\frac{12}{30} \times 100] =]$ 40%	2	M1 for [50% of 30 oe =] 15 or for [18 x 2 oe =] 36 or M1 for $[\frac{18}{30} \times 100] \text{ oe} =]$ 0.6, 60 or 60% or for $[\frac{12}{30} \times 100] \text{ oe} =]$ 0.4, 40 or 40%	For 2 marks candidates must: state incorrect oe and use comparable numbers: 15 and 18, 15 and 12, 36 and 30 or state 40% or 60% After candidates have made the above comparison isw any comments
6	(a)	(i)	4	1		
6	(a)	(ii)	8	1		
6	(b)		$6 \times (10 \div 2 - 4) = 6$	1		Do not allow more than one bracket
7	(a)		[0].8[0]	1		
7	(b)		6	1		

Question			Answer	Marks	Part marks and guidance	
7	(c)		$5\frac{1}{3}$	1		
8			700 cao	3	Working in ml: B2 for 800 identifiable as the final amount of water in one or both bottles, may be without working OR M2 $\frac{1500+100}{2} - 100$ or $\frac{1500-100}{2}$ OR B1 for [1.5 l =] 1500 [ml] M1 for $\frac{1500+100}{2}$ or $\frac{\text{figs } 15+100}{2}$ or for $\frac{\text{figs } 15-100}{2}$ or for at least two new correct pairs of values where $A + B = \text{their } 1500 + 100$	Working in litres: B2 for answer of 0.7 or 0.8 identifiable as the final amount of water in one or both bottles, may be without working OR M2 $\frac{1.5+0.1}{2} - 0.1$ or $\frac{1.5-0.1}{2}$ OR B1 for [100 ml =] 0.1 [l] M1 for $\frac{1.5+0.1}{2}$ or $\frac{1.5+\text{figs } 1}{2}$ or for $\frac{1.5-\text{figs } 1}{2}$ or for at least two new correct pairs of values where $A + B = 1.5 + \text{their } 0.1$
9	(a)		$5x + 4y$ final answer	2	B1 for final answer $5x + ky$ or $kx + 4y$ or for correct answer seen then spoiled	Accept e.g. $5x$ alone or $4y$ alone for B1
9	(b)	(i)	$10 - 5x$ final answer	1		
9	(b)	(ii)	$2x^2 + 6x$ final answer	2	B1 for $2x^2$ or $6x$ in final answer or for correct answer seen then spoiled	

Question			Answer	Marks	Part marks and guidance	
10			$\frac{4 \times 20}{2}$ and answer 40	3	B2 for $\frac{4 \times 20}{2}$ or B1 for two of 4, 20 or 2 seen If 0 scored and no workings seen instead award SC1 for answer of 40.	Condone trailing zeros
11			$\frac{3}{5}$ cao	3	B2 for $\frac{75}{125}$ oe OR B1 for 75 or 125 or $1\frac{1}{4}$ oe or $2\frac{5}{60}$ oe or for <i>their</i> fraction fully simplified to a proper fraction	Ignore units For B marks accept crossed out common terms, treat as cancelling not deletion oe for B2 include 60% and 0.6 B1 must not come from wrong working. For B1 allow decimal equivalents 1.25 or 2.08[33..]
12	(a)	(i)	5	1		Do not allow 5x or $\frac{5}{1}$
12	(a)	(ii)	37	1		

Question			Answer	Marks	Part marks and guidance	
12	(b)		$x = \frac{y-2}{5}$ oe final answer	2	M1 for $y - 2 = 5x$ or for $\frac{y}{5} = x + \frac{2}{5}$ or for answer $\frac{y-2}{5}$ If 0 scored SC1 for correct step to final answer FT incorrect first step	Allow for 2 marks: $x = \frac{2-y}{-5}$ and $x = \frac{y}{5} - \frac{2}{5}$ If final answer $x = y - 2/5$ but $x = \frac{y-2}{5}$ is clearly seen in their working award 2 marks SC1 only awarded for 2 step attempts and where <i>their</i> answer $x =$ includes 2, 5 and y Incorrect first step must be seen and then correct step to their final answer for SC1
13			(13, 6)	3	B2 for answer (13, k) or (k, 6) or M1 for identifying any correct distance or identify on diagram point (13, 9) or (5, 6)	The correct distance must be 3, 8, 5 or 11, but they must be correctly shown, this may be shown on the diagram Seeing 3, 8, 11 or 5 from calculations or in co-ordinates alone is M0 Condone missing bracket for coordinates.
14	(a)		20, 20 and 5 nfw	3	B2 for [£]45 or M1 for $30 \times 1.5[0]$	Accept answers in any order

14	(b)	350 with correct working	5	M4 for $16 \times 50 \times \frac{7}{10} \times \frac{5}{8}$ oe or 35×10 after M1 awarded or M2 for $16 \times 50 \times \frac{7}{10}$ oe or $16 \times 50 \times \frac{5}{8}$ oe or $16 \times 50 \times \frac{3}{10} \times \frac{5}{8}$ oe A1 for 560 or 500 or 150 or M1 for 16×50 or $16 \times \frac{5}{8}$ oe or $50 \times \frac{7}{10}$ oe A1 for 800 or 10 or 35 If 0, 1 or 2 scored instead award SC3 for answer 350 with no or insufficient working If 0 or 1 scored instead award SC2 for 560 or 500 or answer of 150 with no or insufficient working If 0 scored instead award SC1 for 800 or 10 or 35 with no or insufficient working	Correct working requires evidence of M4 or M2A1 Need to see supporting M marks to award A marks, otherwise SC applies All M marks may be seen performed in steps Allow M4 for $\frac{7}{10} \times 50 \times 10$ Allow M2 for 16×35 Allow M2 for 10×50 Allow M2 for 10×15 1 litre = 10 miles implies M1 A1 $\frac{7}{10}$ oe of 50 = 35 or $\frac{5}{8}$ of 16 = 10 implies M1 A1 $\frac{7}{10} = \frac{35}{50}$ implies M1 but 35 must be stated or used for A1 $\frac{7}{10}$ of 50 or $\frac{5}{8}$ of 16 alone is M0
----	-----	--------------------------	---	---	--

Question			Answer	Marks	Part marks and guidance	
15	(a)		14	1		Accept 14.0
15	(b)		$[0].25$ or $\frac{1}{4}$ oe	1		
16			Shows 56% or 0.56 and 0.54 or $\frac{56}{100}$ and $\frac{54}{100}$ or equivalent fractions with a common denominator or shows 13.5 [out of 25] and 14	3	M2 for $\frac{14}{25} \times 100$ oe or 0.56 or for $\frac{54}{100} \times 25$ oe OR M1 for $\frac{14}{25}$ seen or for $\frac{54}{100}$ or 0.54 seen	Allow 3 marks or M2 for correct values/method isw other working For M2 accept $\frac{10+4}{10+15} \times 100$ instead of $\frac{14}{25} \times 100$ For $\frac{14}{25} \times 100$ oe e.g. $\frac{14 \times 4}{25 \times 4}$ M2 implied by 13.5 Accept 14 out of 25 seen for M1
17			$x \leq 6$ final answer	2	M1 for $2x \leq 11 + 1$ or better or for $x - \frac{1}{2} \leq \frac{11}{2}$ or better or for answer 6 with or without equals sign or wrong inequality symbol	For M1 allow any inequality or equals signs: e.g. M1 for $2x > 11 + 1$.

Question			Answer	Marks	Part marks and guidance	
18			40	3	M2 for $\frac{11}{20}$ or $\frac{22}{40}$ or $[1]\frac{15}{20} - [1]\frac{4}{20}$ or $[1]\frac{4}{20} + \frac{22}{d} = [1]\frac{15}{20}$ or $\left[\frac{22}{d} = \right]\frac{35}{20} - \frac{24}{20}$ oe or $\frac{24}{20} + \frac{22}{d} = \frac{35}{20}$ oe or M1 for $[1]\frac{3}{4} - [1]\frac{1}{5}$ oe or $\frac{35}{20}$ and $\frac{k}{20}$ or $\frac{k}{20}$ and $\frac{24}{20}$ or $[1]\frac{15}{20}$ and $[1]\frac{p}{20}$ or $[1]\frac{p}{20}$ and $[1]\frac{4}{20}$ OR M2 for $7 \times 5 \times d - 6 \times 4 \times d = 22 \times 5 \times 4$ or better or M1 for $\frac{6 \times d + 22 \times 5}{5d} = \frac{7}{4}$ oe or $\frac{4 \times 6 \times d + 22 \times 5 \times 4}{20d} = \frac{7 \times 5 \times d}{20d}$ oe	Accept other equivalent fractions with a common denominator for M2 or M1 M2 implied by $\frac{22}{0.55}$ For M2 accept e.g. $\frac{7 \times 5}{4 \times 5} - \frac{6 \times 4}{4 \times 5}$ Accept e.g. $\left[-\frac{22}{d} = \right]\frac{24}{20} - \frac{35}{20}$ for M2 M1 implied by 0.55 or $[1].75 - [1].2$ $p < 20$ $35d - 24d = 440$ $\frac{6d+110}{5d} = \frac{7}{4}$ $\frac{24d+440}{20d} = \frac{35d}{20d}$

Question			Answer	Marks	Part marks and guidance	
19	(a)		8 with correct working	4	B3 for answer 7 with correct working OR Listing: M3 for [10], 80, 150, 220, 290, 360, 430, 500 or for 70, 140, 210, 280, 350, 420, 490 or M2 for two correct lists up to at least the first common term 80 or 70 or M1 for a list with at least [10,] 24, 38, 52, 66, 80 or [10,] 45, 80 or a list with at least 14, 28, 42, 56, 70 or 35, 70 OR Calculation: M3 for $(500 - 10) \div 70 [+ 1]$ oe or M2 for $2 \times 5 \times 7$ implied by LCM = 70 or M1 for showing prime factors of 14 and 35 [14 =] 2, 7 and [35 =] 5, 7 If 0 or 1 scored, instead award SC2 for answer 8 with no or insufficient working If 0 scored, instead award SC1 for answer 7 with no or insufficient working	Correct working requires evidence of at least M2 If answer 8 and M2 earned award 4 marks If answer 7 and M2 earned award B3 If candidate uses both listing and calculation methods, mark the better of these methods e.g. [10,] 24, 38, 52, 66, 80 and [10,] 45, 80 or 14, 28, 42, 56, 70 ... and 35, 70. isw errors beyond 80 or 70 for M2 but not M3 isw any errors beyond these values For M3 accept e.g. $10 + 70(n [-1]) = 500$ Condone e.g. HCF = 70 but 70 must come from use of prime factors Allow e.g. 2, 7 and 5, 7 on factor trees or in Venn diagram Do not award SC2 if clearly from wrong working Do not award SC1 if clearly from wrong working

Question			Answer	Marks	Part marks and guidance	
19	(b)		$14n - 4$ oe final answer	2	B1 for answer $14n + k$ oe or $-4 + pn$ oe ($p \neq 0$) or for correct answer seen then spoilt	Accept unsimplified for 2 marks or B1 Condone $n = 14n - 4$, Condone use of other variable e.g. $14x - 4$ for 2 marks or B1
20			Draws ruled line $y = x - 1$ and $[x =] 2$ $[y =] 1$	4	M2 for drawing ruled line $y = x - 1$ or M1 for correct but freehand or for ruled line with gradient 1 or for ruled line with gradient ≥ 0 passing through (0, -1) B2FT for $x = 2$ and $y = 1$ or B1FT for one correct value	Accuracy - use overlay as a guide must touch circles For M2 must pass through (0, -1) and intersection with $y = 2 - \frac{1}{2}x$ For gradient ≥ 0 accept horizontal line but not vertical. Allow correct or FT for B2 and B1 FT <i>their</i> straight line, which may be freehand. If more than one line apply choice rule. Correct readings for x and y +/- 0.2 and their reading should be within the same grid square of the intersection of the two lines.

Question			Answer	Marks	Part marks and guidance	
21			incorrect oe and shows [$30 \div (7 - 2) \times 14 =$] 84 oe	5	M4 for $30 \div (7 - 2) \times 14$ oe or total 84 or M3 for $30 \div (7 - 2) \times k$ oe where $k = 1, 2, 5, 7$ or 14 or B3 for [totals] 140 and 210 or B2 for [total] 140 or 210 or M1 for $30 \div (5 - 2) \times k$ oe where $k = 1, 2, 5, 7$ or 14 or for $30 \div (7 - 5) \times k$ oe where $k = 1, 2, 5, 7$ or 14	Accept for M4 e.g. $12 + 30 + 42$ For all marks isw other totals/working, could use trials to reach acceptable totals M3 may be implied by 12, 30 and 42 seen If method not shown M1 may be implied by 20, 50 and 70 seen If method not shown M1 may be implied by 30, 75 and 105 seen
22			ABC or CBA CB or BC AB or BA and opposite sides of a rectangle are equal oe SAS oe	B1 B1 B1 B1dep	Dependent on previous B1B1B1	Must use 3-letter notation See Appendix 1 for comment isw any comment made if SAS stated See Appendix 2 for SAS oe
23			$\frac{1}{16}$ or 0.0625	2	B1 for $\frac{1}{2^4}$ or 16^{-1} isw	isw for 2 marks once correct answer seen 16 alone is M0

Question			Answer	Marks	Part marks and guidance									
24			Correct two-way table constructed and completed	6		For all marks ignore additional columns or rows on table for attempts to find totals								
			<table><tr><td></td><td>Autumn</td><td>Spring</td><td>Summer</td></tr><tr><td>Class A</td><td>90</td><td>120</td><td>40</td></tr><tr><td>Class B</td><td>63</td><td>126</td><td>47</td></tr></table>				Autumn	Spring	Summer	Class A	90	120	40	Class B
	Autumn	Spring	Summer											
Class A	90	120	40											
Class B	63	126	47											

Question			Answer	Marks	Part marks and guidance	
25	(a)		Tree diagram correctly completed with probabilities 0.3 oe on all scores branches and 0.7 oe on all does not score branches	2	B1 for a correct pair of branches. or for 0.3 oe on all scores branches or for 0.7 oe on all does not score branches	
25	(b)		0.42 oe	3	M2 for $their\ 0.3 \times their\ 0.7 + their\ 0.7 \times their\ 0.3$ oe or $1 - (their\ 0.3 \times their\ 0.3 + their\ 0.7 \times their\ 0.7)$ or M1 for $their\ 0.3 \times their\ 0.7$ or $their\ 0.7 \times their\ 0.3$ oe	isw attempted cancelling or conversion after correct answer seen Products may be given at the end of the branches in the tree diagram, however they must be used in final answer $\frac{0.42}{1}$ scores M2 only For all FT marks <i>their</i> probabilities must be $0 < p < 1$

Question			Answer	Marks	Part marks and guidance
26			8 with correct working	6	Correct working requires evidence of at least M1 and M1dep If candidates use numerical values for π, allow 3.1 or 3.14... or $\frac{22}{7}$. If candidates use other values e.g. 3 they must state $\pi = 3$ For M1 k must be numerical and > 0 M1 may be implied by 144π Award M2 A1 if M1 A1 seen Award M and A marks for the area of sector even if not used to find final answer and not contradicted. Dependent on M1. Implied by 64π implied by 64 e.g. $\pi r^2 = 64\pi$ or $r^2 = 64$ or $r = \sqrt{64}$. Dependent on previous M1dep If candidates only use trials to find square root, they must obtain the correct answer. Do not award SC2 if clearly from wrong working Do not award SC1 if clearly from wrong working M2 for $\frac{120}{360} \times \pi \times 12^2$ oe or M1 for $\frac{120}{360}$ oe $\times k\pi$ or $\pi \times 12^2$ or $k \times \pi \times 12^2$ A1 for 48π AND M1dep for <i>their</i> $48\pi \div 3 \times 4$ or for <i>their</i> $48 \div 3 \times 4$ M1dep for $[\pi \times]r^2 = [\pi \times](\text{their } 48 \div 3 \times 4)$ If 0 or 1 scored instead award SC2 for $r = 8$ with no/insufficient working or if 0 scored award SC1 for area of sector = 48π

APPENDIX 1

Q22 – All exemplars below assume AB (or BA) has been given in addition to the following:

	Response	Mark
A	Opposite sides of the rectangle are equal (and parallel)	B1
B	Parallel sides of a rectangle are equal	B1
C	Opposite sides are equal	B1
D	Opposite lengths are equal	B1
E	Parallel sides are equal	B1
F	They are parallel making them equal for a rectangle (They refers to sides CD and AB)	B1
G	The long sides are equal	BOD B1
H	The top and the bottom sides are equal	BOD B1
I	Both lengths are equal in a rectangle	B0
J	They are parallel	B0
K	They are equal lengths (The candidate is stating no more than $CD=AB$)	B0
L	Lengths of a rectangle are equal	B0
M	It's equal	B0
N	They're the same length	B0
O	Opposite angles are equal	B0
P	They are opposite each other	B0

APPENDIX 2

Q22 – All exemplars below assume that the candidate has been awarded B1, B1, B1 in the previous three parts of the question.

	Response	Mark
A	Side Angle Side	1
B	Two sides and the included angle are the same in both triangles	1
C	Two sides and the angle between these sides are equal in both triangles.	1
D	SAS – All sides and angles are equal	1 - isw
E	Right angle, Hypotenuse, Side (RHS) <i>(not related to the three given statements)</i>	0
F	Two equal sides and one equal angle <i>(not stating the relationship between the sides and angles)</i>	0
G	All sides, angles and lengths are equal	0
H	They are equal and corresponding	0

Need to get in touch?

If you ever have any questions about OCR qualifications or services (including administration, logistics and teaching) please feel free to get in touch with our customer support centre.

CAMBRIDGE
UNIVERSITY PRESS & ASSESSMENT

OCR is part of Cambridge University Press & Assessment, a department of the University of Cambridge.

For staff training purposes and as part of our quality assurance programme your call may be recorded or monitored. © OCR 2025 Oxford Cambridge and RSA Examinations is a Company Limited by Guarantee. Registered in England. Registered office The Triangle Building, Shaftesbury Road, Cambridge, CB2 8EA.

Registered company number 3484466. OCR is an exempt charity.

OCR operates academic and vocational qualifications regulated by Ofqual, Qualifications Wales and CCEA as listed in their qualifications registers including A Levels, GCSEs, Cambridge Technicals and Cambridge Nationals.

OCR provides resources to help you deliver our qualifications. These resources do not represent any particular teaching method we expect you to use. We update our resources regularly and aim to make sure content is accurate but please check the OCR website so that you have the most up-to-date version. OCR cannot be held responsible for any errors or omissions in these resources.

Though we make every effort to check our resources, there may be contradictions between published support and the specification, so it is important that you always use information in the latest specification. We indicate any specification changes within the document itself, change the version number and provide a summary of the changes. If you do notice a discrepancy between the specification and a resource, please [contact us](#).

Whether you already offer OCR qualifications, are new to OCR or are thinking about switching, you can request more information using our [Expression of Interest form](#).

Please [get in touch](#) if you want to discuss the accessibility of resources we offer to support you in delivering our qualifications.
